

The Eye of The Needle Camera Strap Finishing Form

Total Length:

If you bought a canvas from us, you do not need to worry about this section. The standard size strap requires 28" of needlepoint. If the design is not a repeating pattern, we need plain background 2" before your design begins and 2" after the design ends. We need this plain background area for the leather tabs to be properly anchored.

Finishing Details:

Our finisher uses a calf skin style of finishing where the needlepoint is glued on in a way that they will not separate from the leather even after 40 years of wear. This style of leather is repeatedly chosen because of its superior comfort and range of motion since the back is finished in calf skin leather. We will block your canvas for you before sending to our finisher.
