

The Eye of The Needle Belt Finishing Form

Calf Skin Leather (Ideal for Equestrian & Golfers)

Total Length:

If you bought a canvas from us, you do not need to worry about this section. Your canvas will be 6" less than your measured belt size. We need plain background 2" before your design begins and 2" after the design ends. We need this plain background area for the leather tabs to be properly anchored and the billet to swing over. Example: If your belt is a 38 you will needlepoint 32" in length with design area of 28"

Belt Width:

Your canvas will need to be either 21 or 23 rows wide. Our finisher will finish with either a finishing stitch (Recommended) or 2 extra rows on the top and bottom for rollover.

Finishing Details:

This style is glued on in a method that will not separate from the leather even after 40 years of wear. We will block your canvas for you before sending to our finisher. This style of leather is repeatedly chosen by golfers, equestrians, and professionals because it gives more range of motion since the back is finished in calf skin leather. The buckle tab and billet are regular full grain leather. We cannot stress enough that you **MUST** measure your belt as the diagram below depicts! In 36 years of business, we have never seen a needlepoint belt only 2" larger than pants size!
