

# The Eye of The Needle Kids Belt Finishing Form

## Calf Skin Leather (Ideal for Equestrian & Golfers)

### 2-4 Week Finishing Time

#### Total Length:

Your canvas will be 6" less than your measured belt size. We need plain background 2" before your design begins and 2" after the design ends. We need this plain background area for the leather tabs to be properly anchored and the billet to swing over. Example: If your belt is a 38 you will needlepoint 32" in length with design area of 28". For further clarification see Calf Skin Stitching Guidelines on Finishing Services.

#### Belt Width:

Your canvas will need to be either 19 - 23 rows wide on 18 Count Canvas and 13 - 15 on 13 Count Canvas. Our finisher will finish with either a finishing stitch (Recommended) or 2 extra rows on the top and bottom for rollover.

#### Finishing Details:

This style is glued on in a method that will not separate from the leather even after 40 years of wear. We will block your canvas for you before sending to our finisher. This style of leather is repeatedly chosen by golfers, equestrians, and professionals because it gives more range of motion since the back is finished in calf skin leather. The buckle tab and billet are regular full grain leather. We cannot stress enough that you **MUST** measure your belt as the diagram below depicts! In 36 years of business, we have never seen a needlepoint belt only 2" larger than pants size!

**Description of Canvas:** \_\_\_\_\_

**Initials on Canvas:** \_\_\_\_\_

**Measured Belt Size:** \_\_\_\_\_

**The only way to get an accurate belt size is by measuring as the diagram to the right shows.**

**NOT BY WHAT IS STAMPED ON THE BACK.**

**Measure from the END of the buckle to the hole you use most often**

**Would you like Growing Room?**  Yes  No

Growing room will make the tightest hole the currently used hole with 4 expansion holes available. If you would like growing room do not add anything to what you measure, we will take care of that for you. This will give 5-7 years of use.
